PRELIMINARY

# WHO DEXIBELL IS

**Dexibell has a** creative energy **that is born from the desire to enhance the** know-how**, the talent and experience of some** of the best **and most highly regarded** Italian designers and engineers.

The amalgamation of the best of classical instruments with modern technological innovations, such as in VIVO, where the sweet notes of a Piano from 1850, Chopin's favourite piano, are supported by a cutting edge CORTEX-Quadcore electronic brain capable of managing 320 digital oscillators.

Dexibell is born from the need to create products faithful to the highest expectations of the musicians.

# VIVO TECHNOLOGY

**T2L** True 2 Life: Is a new technology specifically created and crafted for pianos which combines the following innovations developed to enhance the responsiveness and accuracy of sound timbre relative to the dynamic articulation of the pianist.

T2L Modelling

**DEXIBELL exceeds the current standard in the 6 existing models sharing same following features:**

| | |
|---|---|
| **AUDIO QUALITY** | 24 bit linear, 48 Khz (processing and DSP at 32 bit floating) |
| **UNLIMITED POLYPHONY** | 320 oscillators |
| **XXL SAMPLES** | Holophonic waves up to 15” on lower Piano notes |
| **WIRELESS CONNECTIVITY** | Bluetooth |
| **DISPLAY** | 128 x 64 High Contrast Organic LED |
| **EFX** | 6 independent with: 24Reverb, 12Effects, 4 band EQ |
| **PLAYER/RECORDER** | WAV 48KHz, 32bit floating |
| **USB** | to Host (MIDI), to Device (Memory) |
| **PARTS** | 3 (Main, Layer, Split) |

# VIVO DIGITAL PIANO RANGE

VIVO HOME - Design that speaks Italian.
VIVO PORTABLE - Its purity, your talent, always on the move.
VIVO STAGE - A show of sound.

# Become the idol of your fans leading various “tribute bands”

# X MURE

XMURE is a revolutionary technology completely developed in-house by Dexibell.
This unique App for iPad / iPhone, using extremely complex algorithms, will revolutionize the concept of the “arranger”.
We have superseded the conventional technology of generators, virtual tools or “standard MIDI files” with real audio tracks recorded by musicians playing real instruments.
You become both the conductor and the orchestra by inputting real time chord progressions either from the iPad / iPhone screen or any other instrument via USB or audio jack.

App for
iPad / iPhone

- Select chords by touching the screen of “X MURE” and the music will follow your fingers.

- Re-arrange your favourite music tracks using countless musical genres or create a completely new hit songs.

- Not able to play music?
Just find a music score on the Internet, import it and you’re ready to start, “X MURE” will do the rest for you.

- Using “Harmony Poly Fragmentor” the first algorithm in the world to be able to modify “audio tracks” in real time, “X MURE” allows you to play music directly on the screen of your iPad / iPhone or with a musical instrument connected via USB.

“X MURE” does not use sound generators, virtual instruments or “Standard MIDI File”, it is exclusively based on audio tracks recorded by real musicians playing real instruments. It does not simulate reality... it is the reality.

X MURE” is a “DEXIBELL” software product.
